

The fountains are delicate and very valuable, so they are only for looking at. There are sprinklers in the gardens if you want to play with water, but please remember that you will not be allowed into the palace in wet clothes.

Smoking is only permitted in designated areas. Please ask a member of staff for directions.

Feel free to enjoy your picnic from home on one of the lawns in the garden.

Make sure you are well protected as you enjoy the gardens. Free sun cream is available in several places.

Wasps also like to hang out in the garden. Throw rubbish away immediately, so we can keep the gardens clean and tidy, and cut down on the number of wasps.

If you would like to know more about the gardens and stables, download the Paleis Het Loo app and take a look at the map.
